

I believe that the Republican majority on the FCC board is rushing to turn radio, TV and news media over to a few giant corporate owners and decision makers via further deregulation. The FCC needs to set rules which serve the public, rather than the private, interest. The FCC needs to hold more hearings which will allow public input. We need many opinions and viewpoints to be expressed in media ownerships, not just corporate versions of what America should be. Our media should not be for sale to the highest bidder.

I urge you to retain the current ownership rules. Thank you.
